### FILE REQUIREMENTS

Our production department is Mac-based and uses computer-to-plate technology. **We prefer press-ready PDF-X1a files** (file must include bleed, trim marks and exact trim size: 9" x 10 7/8").

**Images:** Photographic images must meet the following guidelines:

- Resolution:** 300dpi
- Color mode:** CMYK or Grayscale (convert all RGB images to CMYK). Pantone (PMS) colors will be converted to CMYK and we will not be held responsible for color shifts due to conversion.

We also accept native files created with the following:

- Adobe InDesign CC
- Adobe Photoshop CC
- Adobe Illustrator CC

**Trapping:** All items in the document must be trapped to fit. We DO NOT provide trapping, and will not be responsible for undesirable results due to improper trapping.

**Proofs:** A color proof of your ad is recommended. Publisher cannot guarantee reproduction of ads without a SWOP industry standard proof. Proofs should be output at 100%. Digital proofs and laser prints are not considered accurate in color and will be treated as "content verification only" proofs.

**Material Storage:** Printing material will be stored for 12 months and then destroyed unless advised otherwise.
